CLASS DESCRIPTIONS

The Late Night Crop \$20

This event runs from 6pm – 12am and includes supper, 3 door prizes, and refreshments and snacks. There are 24 spots available and you can come and meet new people, or get down to business and complete a project you are working on. There is always fun to be had at our crops and it is definitely an excuse to get out of the house and devote some time to your scrapbooking.

Scrapbook Basics \$FREE

In this class the instructor will go over how to use the most common tools, adhesives and embellishments in a casual atmosphere, and will then help you put together a layout using some of the techniques learned in the class

Doodling \$10

Doodling is fast becoming a favorite trend in the world of scrapbooking. Join Lisa for our most popular class, learn some basic doodles, and make 3 fun layouts. This class is for all levels of scrapbookers and doodlers, from seasoned pros to newbies. Everyone can benefit from trying something new!

Ranger Technique Class \$25

Okay, so how many of us have stared at all the AMAZING Ranger product going “what on earth is that for”? Well this class is the perfect way to learn a few new techniques and teach you what exactly all that product is meant for, plus you walk out with 3 single page layouts! The possibilities are almost endless, so we have 3 different versions of this class running in the next two months. This is a MUST take class!

Card Class \$20

In this class you will be making 5 general themed cards with the latest and greatest products, and focusing on a new technique each week as Juli uses the new products that we receive weekly to create beautiful cards!

Hambly Transparency Class \$25

Finally a class dedicated to using the fabulous Hambly products. These transparencies are just on a whole new level of quality, beauty and possibilities. You will be making 3 stunning layouts so be sure to check this one out for tips on how versatile this product can be!

Chipboard Technique Class \$30

In this class you will be making 3 single page layouts designed around the flair and beauty of the Buzz and Bloom chipboard all the way from Australia. You will learn multiple techniques to embellish on this fabulous product and will be shown several other ideas that you can take home and add to any page, card or altered project.

Paper Sewing Class \$20

Machine sewing on Layouts – it’s a cool technique but seems to scare a lot of people so we thought we’d give you some encouragement. If you’d like to try sewing directly onto paper, come along to this basic layout class. To participate, you must bring your own sewing machine.

Layout Sketch Class \$20

This class is all about sketches and their uses, from the simple to the complicated. Not only will you come away with a finished layout or two and enough sketches for 6 more layouts, you will have a fresh new way of thinking about sketches and how they can help you scrapbook.

TREASURED MEMORIES

- SCRAPBOOK LIKE YOU MEAN IT -

Daryl Benson is a professional photographer, born and raised in Edmonton. He writes for Photo Life, Outdoor Photographer and PC Photo Magazine. He shoots stock for both Masterfile and Getty stock agencies and has self-published three books; A Guide to Photographing the Canadian Landscape, Alberta Images and Canada Images.

Photography Workshop I - Introduction

Professional photographer Daryl Benson will be giving a four evening workshop on Family, Pet and Travel Photography. The goal is to share ideas and information that will improve your photographic skills and help you to get the images you envision for the albums you create.

The workshops will run for four weeks, each Monday, starting April 14th. Classes will run from 7:30PM to 9:00PM each evening. I will stay later each evening to go over participant's specific cameras and questions one on one. The last class will be a show and share of the two-page spread you created from the images shot as assignments for these classes.

Topics discussed will be, camera basics, aperture, shutter speed and ISO settings (both film and digital), composition, filters, lighting, portrait, travel tips, how to shoot your pet (in a good way), design, image presentation and anything else you may be interested in photographically (I've been doing this for well over 25 years, I've made every mistake possible at least once, but, have learned from each one).

Bring your camera to the first class (film or digital, doesn't matter, and the cameras manual – if you can find it)! There will be assignments at the end of each class. Participants will be responsible for having prints made from the assignments to bring to class the following week for a group critique (no one's being judged here, it's all for fun and learning). Participants will also be responsible for creating (on their own), a two-page scrapbook layout using the images they shot for these classes.

Fee \$50.00 – 15% discount for members

Photography Workshop II - Intermediate

Professional photographer Daryl Benson will be giving evening workshops on Photography. This is a more advanced course and will deal with hands on assignments during the classes and one field trip to put into application the ideas covered.

The workshops will run for four weeks, each Wednesday, starting April 16th. Classes will run from 7:30PM to 9:00PM each evening. The second last class (April 30th) will take place at the Alberta Legislative Grounds and will continue beyond 9:00PM that evening so that we can do some night photography.

Topics discussed will be a short review of camera basics (aperture, shutter-speeds and ISO settings), composition, selective focus, depth of field, using props and lighting (in class), portrait lighting, light painting techniques and how to sprinkle words like “hyper-focal distance” and “reciprocity failure” into your vocabulary so you will sound like you took an advanced photography course.

Bring your cameras and manuals to each class. There will be assignments during class and at the end of each class. Participants will be responsible for having prints made from these assignments to bring to class the following week. A **short** bit of time will be taken at the beginning of each class to review and share one another's work.

Fee \$50.00 – 15% discount for members
