## PHOTOGRAPHY WORKSHOP II - INTERMEDIATE

Professional photographer Daryl Benson (a.k.a. Chantel's Dad) will be giving evening workshops on Photography. This is a more advanced course and will deal with hands on assignments during the classes and one field trip to put into application the ideas covered.

The workshops will run for four weeks, each Wednesday, starting April 16<sup>th</sup>. Classes will run from 7:30PM to 9:00PM each evening. The second last class (April 30<sup>th</sup>) will take place at the Alberta Legislative Grounds and will continue beyond 9:00PM that evening so that we can do some night photography.

Topics discussed will be a short review of camera basics (aperture, shutter-speeds and ISO settings), composition, selective focus, depth of field, using props and lighting (in class), portrait lighting, light painting techniques and how to sprinkle words like "hyper-focal distance" and "reciprocity failure" into your vocabulary so you will sound like you took an advanced photography course.

**Bring your cameras and manuals to each class.** There will be assignments during class and at the end of each class. Participants will be responsible for having prints made from these assignments to bring to class the following week. A **short** bit of time will be taken at the beginning of each class to review and share one another's work.

**Fee \$50.00 – 15% discount for members**

*Daryl Benson is a professional photographer, born and raised in Edmonton. He writes for Photo Life, Outdoor Photographer and PC Photo Magazine.
